SHAHD IBRAHIM MAHROUS SOLIMAN

Artificial Intelligence Student

Al-Qalyubia, Egypt | shahdsoliman.2005@gmail.com | 0112 906 4461| LinkedIn | GitHub | Portfolio

OBJECTIVE

Computer Science & AI engineering student skilled in Python, C++, SQL and data analysis (Pandas, NumPy, Jupyter). Seeking an internship or part-time role in data science to apply and grow practical skills; strong team player and problem-solver.

EDUCATION

B.Sc. in Artificial Intelligence — Banha University

September 2023 – Present | GPA: 3.59

Multidisciplinary focus on AI, data science, robotics and machine learning; coursework in neural networks, data structures, algorithms and OOP; hands-on experience with Git and Python libraries.

SKILLS

Technical: Python, C++ (OOP), SQL, Pandas & NumPy, Data Structures & Algorithms, Jupyter Notebook, Machine Learning

Soft Skills: Teamwork & Leadership, Problem Solving, Presentation, Time Management

Languages: Arabic (Native), English (IELTS B2), Japanese (Beginner), Chinese (Beginner)

PROJECTS

- ISEF — new method for obtaining clean energy from seawater
- Neural network model for flower-type classification (3 approaches) with deployment
- NLP model for article summarization
- Machine learning model for insurance-cost prediction
- Java clinic management system
- Python Connect-4 game
- Computer Graphics 3D runner game
- 5-DOF hand robot
- Research paper — Whale Optimization Algorithm

COURSES & TRAINING

- Data Science & AI Camp — GDG Benha
- 36-Hour Data Science Bootcamp
- Python Course (GUI Development)
- Career Planning — INNO Space
- Codetivate Hackathon

ORGANIZATIONS & ACTIVITIES

- STEM Sherkya MAL — Co-Director, Coaching & Academics Committee
- TEDx Youth Maadi & Sherkya STEM — Content Writing / Coaching Committees
- OBM Education — Marketing Department
- BNS Physics Club — Cast Member

EXPERIENCES

- Ischool — Tutor, DEMI Program
- YC School— coding instructor
